

Sturt Upper Reaches Landcare Group Inc

AGM 2008 & public meeting

Professor Graham (Gus) Nathan*

of the University of Adelaide Research Institute for Climate Change

will speak about

Mitigating climate change—local options in the global challenge

Come along to hear about:

- the national and global context of climate change
- carbon trading—what and why
- emerging technologies: wind, geothermal and clean coal
- bio-fuels: challenges and time-scales
- why conservation and efficiency are important
- reducing your footprint—home generation and other options

7.30 p.m. Tuesday 11th November

Upper Sturt Community Hall

cnr Upper Sturt Road & Sturt Valley Roads, Upper Sturt

There will be a brief AGM, followed by Gus' presentation.

Light refreshments will be available following the meeting.

A gold coin donation to aid the activities of SURLG would be appreciated

* Gus works to support the development of more sustainable energy technologies, He was principal leader of the Chief Design Team for the award winning fuel and combustion system for the Sydney Olympic Relay Torch and was co-inventor of the combustor used in the torch and Stadium flame for the Athens Games. He also works widely with industry.
